Introductory Section

The Fairfield-Suisun Sewer District as a special District, owns and operates a system of sanitary sewers and pumping stations, used to oversee wastewater collection and treatment. Looking at two Intermediate Clarifiers, this process slows the flow down in order to settle out any dead or sloughed off Zooglia mass from the Oxidation Towers. After the solids are gathered and removed they are pumped into the Gravity Belt Thickener.

Board of Directors
Fairfield-Suisun Sewer District
Fairfield, California

Subject: Comprehensive Annual Financial Report
For the Year Ended June 30, 2019

It is a pleasure to submit the Fairfield-Suisun Sewer District's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2019. Responsibility for the accuracy, completeness and fairness of the data presented, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of District operations. Included are all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial activities.

The CAFR is presented in accordance with Generally Accepted Accounting Principles (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB). GAAP requires management to provide a narrative introduction, overview, and analysis, in the form of a Management's Discussion and Analysis (MDA), to accompany the basic financial statements. This letter of transmittal is designed to complement the MDA and should be read in conjunction with it. The District's MDA can be found immediately following the independent auditor's report in the financial section.

The Reporting Entity

The Fairfield-Suisun Sewer District (District) is a special district which serves all territory within the cities of Fairfield and Suisun City. It was formed by an act of the California State Legislature on May 5, 1951. The act defined the District's boundaries as the boundaries of the cities. Any territory annexed to either city is also annexed to the District, and in general, no property can be served by the District if it is not in either city.

In September of 2002, the District amended its enabling act language, under AB776, to authorize the acceptance of sewage emanating from buildings that lie outside the District's boundaries for developed parcels that were connected to the District's sewage treatment system before March 1, 2002. The District's change in enabling act language also allows for a contract with Solano County, or other public entities, for the disposal of sewage emanating

from buildings outside the District's service area, if the District determines that the contract furthers the protection of public health and safety and is in the best interest of the District.

The District has broad powers to finance, construct, and operate systems for the treatment, collection and disposal of sewage, stormwater, and recycled water systems within the District's jurisdiction. Its 10-member Board of Directors consists of the members of the city councils of the two cities. The Board president is elected by the Board from among its members. The District's day-to-day operations are managed by the General Manager, who reports directly to the Board of Directors.

Factors Affecting Financial Condition

Local Economic Condition and Outlook

The District is headquartered in Fairfield, California and serves the cities of Fairfield and Suisun City, contiguous cities in Solano County, California. The cities are located along Interstate 80, midway between San Francisco and Sacramento, the state capital. The cities lie in a large valley surrounded by rolling hills. Fairfield is the Solano County seat and houses most county government activities while Suisun City is one of California's oldest cities. Suisun City sits approximately 15 feet above sea level, and a network of sloughs, navigable by small boats, extends from the city to San Francisco Bay.

The area is noted for its moderate climate. It is protected from ocean fog by a low range of hills and is cooled by prevailing sea breezes during the summer. Good visibility and a climate free from extremes were among the factors that influenced the location of Travis Air Force Base in Fairfield. Favorable climate, short drive to major cities, ocean, mountains, and affordable housing have been some of the factors in the areas' past residential growth.

Major employers located within the District's boundaries include Travis Air Force Base, County of Solano, Anheuser-Busch Brewery, Jelly Belly, Producers Dairy Foods, North Bay Medical Center, Kaiser Permanente, other large manufacturers and industries, and shopping districts. The District's sewer service charges are stable with approximately 85% coming from residential customers who are billed a flat fee on a monthly basis. Revenues received from commercial and industrial customers comprise the remaining 15% of the total sewer service charges. Sewer service charges for residential customers increased by 3.6% while commercial and industrial customers increased by varying rates. The increases were effective July 1, 2017 and projected to continue through fiscal year 2021/22, in accordance with the corresponding Cost of Service and Rate Study and Proposition 218 Notice, which the District conducts every few years.

The economic condition within the District's service area, in conjunction with Solano County, continued to grow at a strong pace in fiscal year 2018/2019. According to the Bureau of Labor Statistics preliminary report, the unemployment rate in Vallejo-Fairfield area decreased to 3.9% in June 2019, compared to 4.2% in June 2018. Solano County was close to full employment at 3.9% in June 2019 compared to 4.2% in June 2018. The

statewide unemployment rate in June 2019 also improved at 4.2% compared to 4.2% in June 2018.

Although more jobs within Solano County are needed, consumer confidence is improving, and economic forecast looks favorable. The City of Suisun City is almost at built out. However, the City of Fairfield is projecting continued growth over the next ten years, with approximately 4,200 new single and multi-family homes in the ten-year development forecast. Real estate cost in the District's service area remains relatively affordable compared to our neighbors in the San Francisco Bay Area. Commercial and industrial developments are continuing to be built, albeit at a gradual pace. The District has expanded its treatment plant primarily for this projected growth and is ready to service the growing service area.

Budget and Long-Term Financial Planning

The District is not legally required to adopt a budget or to present budgetary comparison information. In its commitment to fiscal responsibility, the District prepares a biennial budget, along with a ten-year financial plan, which is approved and adopted biennially by the Board of Directors. Status updates and budgetary comparisons are presented to the Board of Directors on non-budget years.

Budgetary control is maintained at the department level for administrative and operating expenses and at the project level for capital improvements. New construction projects are individually approved by the Board.

Major Initiatives

During fiscal year 2018/19, the District initiated and/or completed various major maintenance projects, mostly replacements, and upgrades to different portions of the treatment plant. District management is proactive in the maintenance and upgrade of the treatment plant facilities particularly as it ages, to ensure it remains operational at optimum condition. Significant initiatives during the fiscal year included the following:

Treatment Plant Rehabilitation Project – Many of the paved roads at the District's wastewater treatment plant were built during the original plant construction in the late 1970s or plant expansion in the early 1980s. In order to preserve plant roads in good working order, the District performs periodic asphalt maintenance including crack filling, slurry sealing, milling, and overlaying new asphalt. Crack filling and slurry sealing will extend pavement life by 5-7 years by providing a new wearing surface on top of the pavement, while milling and overlaying new asphalt extends the life by 10+ years by providing a new structural layer of asphalt. The cost of this project is approximately \$263,000.

National Pollutant Discharge Elimination System Permit (NPDES) Renewal - The District's wastewater NPDES discharge permit for the treatment plant is the most critical permit held by the District, as it translates the requirements of the Clean Water Act into specific provisions tailored to the District. It also governs the allowable pollutant levels in water discharged from the plant and specifies design and operational parameters for District

facilities. Permits must be renewed every five years; the Districts current permit expires on April 30, 2020. The cost of this consulting project is approximately \$120,000.

Digester Reliability Improvement Project – The District’s anaerobic digester system is a treatment process used to convert waste solids into heat and energy. Primary and secondary sludges are biologically stabilized in the digesters before being delivered to the Lystek Organic Material Recovery Center (OMRC) for conversion to biofertilizer. The biogas that is produced in the digester process is combusted in cogeneration engines to produce electricity for the treatment plant (about 35% of the plant’s total energy consumption).

The digestion facilities were constructed in the early 1980s, and many of the original components are over 35 years old. Improvements were made to the Anaerobic Digester No. 1 mixing system in 2010 and that digester has been in service ever since. For maintenance and reliability purposes, Anaerobic Digester No. 2 needs similar improvements to fully function. Furthermore, various problems have occurred in the digester system, including failure of a portion of the sludge piping inside the building, the partial failure of the emergency boiler’s insulation, failure of the emergency boiler’s control system, and inefficient temperature control systems for the digesters. In order to keep the facility operational and efficient, major maintenance and rehabilitation efforts are required. The cost of this design services is approximately \$500,000.

Internal Control Structure

The District’s management is responsible for establishing and maintaining a system of internal accounting controls. The objectives of internal controls are to provide management with reasonable, but not absolute, assurance regarding 1) the safeguarding of assets against loss from unauthorized use or disposition, and 2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived, and 2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the District’s internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Independent Audit

California state statutes and bond covenants require an annual independent audit of the books of accounts and financial records of the District. The firm, Cropper Accountancy Corporation was contracted to conduct this year’s audit. Their unmodified opinion is included in the Financial Section of this report.

Awards and Recognition

The District is the recipient of numerous awards of excellence at the local, state and national level for maintaining an efficient, well-run treatment plant. These awards are received from

the local chapter of the California Water Environment Association (CWEA), the state CWEA, the national Water Environment Federation, and the National Association of Clean Water Agencies (NACWA). Awards regularly received are Plant of the Year, Collection System of the Year, Burke Award for Safety, Excellence in Management Recognition, and awards for individual achievements. The District recently received the NACWA Platinum Award for five continuous years of zero violations.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Fairfield-Suisun Sewer District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2018. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

This report could not have been accomplished without the dedicated effort of Olivia Ruiz, District Senior Accountant, who worked many hours to prepare this report. Special appreciation is extended to the entire Finance and Administrative teams, and other staff members who provided information and participated in the preparation of this report. Recognition is also given to District management and to our governing board for its continued support in maintaining the highest standards of professionalism in the management of the District's finances.

Respectfully submitted,

Receiving Waters—Suisun Marsh and Duck Clubs

As part of the District's mission to safeguard public health, we take action to protect the environmentally sensitive Suisun Marsh. The Marsh is the nation's largest brackish water marsh and the largest wetland on the Pacific Coast. Our advanced treatment technology ensures our final effluent water, which is discharged into the marsh, meets stringent water quality standards set by Federal, State, and Regional agencies.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Fairfield-Suisun Sewer District

Report on the Financial Statements

We have audited the accompanying basic financial statements of the Fairfield-Suisun Sewer District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Fairfield-Suisun Sewer District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the activities of the Fairfield-Suisun Sewer District, as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 – 11 be presented to supplement the basic financial statements. Such

information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fairfield-Suisun Sewer District's basic financial statements. The introductory section and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 4, 2019, on our consideration of the Fairfield-Suisun Sewer District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Fairfield-Suisun Sewer District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Fairfield-Suisun Sewer District's internal control over financial reporting and compliance.

CROPPER ACCOUNTANCY CORPORATION

Walnut Creek, California

October 4, 2019

FAIRFIELD-SUISUN SEWER DISTRICT

Management's Discussion and Analysis

This section of the District's Comprehensive Annual Financial Report presents management's discussion and analysis (MDA) of the District's financial performance during the fiscal year ended June 30, 2019. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements and accompanying notes, which follow this section.

The information in this MDA is presented under the following headings:

- Overview of the Basic Financial Statements
- Financial Highlights and Analysis
- Capital Assets
- Debt Administration
- General Enterprise Function
- Using This Annual Report
- Request for Information

Overview of the Basic Financial Statements

The District's basic financial statements are comprised of two components: 1) Basic financial statements, 2) Notes to basic financial statements. In addition to the basic financial statements, the report also contains supplementary required information.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. As a special-purpose government, the District reports its financial statements in accordance with business-type activities known as enterprise funds. Enterprise funds are self-supporting funds that charge fees to users to cover the cost of operations, maintenance, capital asset improvements, and replacements. Enterprise funds are reported on the "accrual basis" of accounting similar to what is used by private sector companies.

The fund financial statements consist of the following: Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, Statement of Cash Flows, and Notes to Financial Statements.

The Statement of Net Position includes all the District's assets, deferred outflows, liabilities, and deferred inflows and provides information about the nature and amount of investment in resources (assets) and obligations (liabilities). Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

FAIRFIELD-SUISUN SEWER DISTRICT

Management's Discussion and Analysis

All the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Net Position. This statement measures the success of the District's operations over the past year and can be used to determine its profitability, creditworthiness, and whether the District has successfully recovered all its costs through its sewer fees and other charges.

The final required financial statement is the Statement of Cash Flows. The primary purpose of this statement is to provide information about the District's cash receipts and cash payments made during the reporting period. The statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and capital and non-capital investing activities.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Financial Highlights and Analysis

Financial Highlights

This discussion is intended to serve as an introduction to the District's basic financial statements. As noted earlier, net position may serve over time as a useful indicator of the District's financial position.

- Total assets increased by 14.0%
- Deferred outflows of resources increased by 52.3%
- Total liabilities increased by 49.9%
- Deferred inflows of resources increased by 71.3%
- Net position increased by 8.1%
- Total revenues increased by 9.5% while capacity fees increased by 44.3%
- Total expenses experienced a moderate increase of 2.3%.

FAIRFIELD-SUISUN SEWER DISTRICT

Management's Discussion and Analysis

Financial Analysis

The following is the District's Condensed Statement of Net Position for fiscal year ended June 30, 2019 as compared to fiscal year ended June 30, 2018:

(\$000)	Fiscal Year Ended June 30,		Increase	Percent
	2019	2018	(Decrease)	
Current and other assets	\$ 55,214	\$ 44,222	\$ 10,992	24.9%
Capital assets	73,713	68,860	4,853	7.0%
Total assets	128,927	113,082	15,845	14.0%
Deferred outflow of resources	5,568	3,655	1,913	52.3%
Long-term liabilities	25,185	16,620	8,565	51.5%
Other liabilities	3,760	2,692	1,068	39.7%
Total liabilities	28,945	19,312	9,633	49.9%
Deferred inflow of resources	555	324	231	71.3%
Net position				
Net investment in capital assets	59,386	60,275	(889)	-1.5%
Restricted				
Restricted for capital projects	5,374	5,250	124	2.4%
Restricted for debt service	737	737	-	0.0%
Restricted for major maintenance	33,755	14,951	18,804	125.8%
Unrestricted	5,744	15,888	(10,144)	-63.8%
Total net position	<u>\$ 104,996</u>	<u>\$ 97,101</u>	<u>\$ 7,895</u>	<u>8.1%</u>

- *Current and other assets* increased by 24.9%. This increase was primarily due to the increase in Cash and Investments balance at year-end as the District is re-building its Major Maintenance Reserve to fund future major repairs and replacements of its aging facilities, as identified in the District's asset management program, which is part of its budget and long-range financial planning process. Cash increases are primarily from the State Revolving Fund loan related to the blower project.
- *Capital assets* increased by 7.0% as work on the blower project was in its second year and nearing completion, increasing CIP at year-end. This project was funded primarily by a low-interest rate State Revolving Fund loan through the California State Water Resources Control Board. The District's treatment plant is built out; therefore, it is anticipated that the net capital assets will stabilize in the next few years until major upgrades & repairs projects get underway.

FAIRFIELD-SUISUN SEWER DISTRICT

Management's Discussion and Analysis

- *Deferred outflows of resources* represent transactions related to the GASB 68 and 75. Transactions related to GASB 68 are the net of the differences between projected and actual experience, changes in actuarial assumptions, changes in the District's proportionate share of the pension pool, and contributions subsequent to the measurement date. The amount related to GASB 75, now in its second year of implementation, represents changes in actuarial assumptions, the difference between projected and actual experience, and other postemployment benefit contributions made subsequent to the measurement date.
- *Long-term liabilities* increased by 51.5%, primarily due to the State Revolving Fund borrowing to fund the blower project, and higher Net Other Post Employment Benefit (OPEB) liability, calculated based on the requirements of GASB 75.
- *Other liabilities* increased by 39.7%, primarily due to salaries and benefits accrual and retention held related to the blower project.
- *Deferred inflows of resources* are transactions related to GASB 68 and GASB 75 and are the differences between expectations and actual experience, and changes in actuarial assumptions.
- The *restricted net position* represents resources that are subject to external restrictions on how they may be used. *Restricted for capital projects*, which represents a cumulative unspent portion of capacity fees received increased by 2.4%. It is anticipated that this growing capital reserve balance will fund growth-related projects in the next few years. The *restricted for debt service* is a State Revolving Fund debt covenant requirement, which the District is required to maintain through the life of the debt. Though a new State Revolving Fund loan related to the blower project is currently utilized, there is no requirement to set aside a debt service reserve until repayment has been calculated and scheduled. The *restricted for major maintenance* is reserved for future plant upgrades and replacement as a condition of the original grant received from the Environmental Protection Agency. The amount set aside as major maintenance reserve each year is based on the total major maintenance projects identified in the District's asset management program, updated biennially as part of its budget and long-range planning process.
- The *unrestricted net position* may be used to meet the District's ongoing obligations to ratepayers and creditors. The unrestricted net position includes amount designated as operating reserve equivalent to three months of operating expenses as identified in the District's biennial budget. The decrease is primarily due to the increase in major maintenance reserve.

FAIRFIELD-SUISUN SEWER DISTRICT

Management's Discussion and Analysis

Financial Analysis *(Continued)*

The following is the District's condensed statement of revenues, expenses and changes in net position for the fiscal year ended June 30, 2019 as compared to fiscal year ended June 30, 2018:

(\$000)	Fiscal Year Ended June 30,		Increase	Percent
	2019	2018	(Decrease)	
Revenues:				
Sewer service charges	\$ 27,549	\$ 26,046	\$ 1,503	5.8%
Drainage fees	1,619	1,598	21	1.3%
Interest income	923	519	404	77.8%
Other	956	194	762	392.8%
Total revenues	<u>31,047</u>	<u>28,357</u>	<u>2,690</u>	<u>9.5%</u>
Expenses:				
Business operations	15,549	14,941	608	4.1%
Sewer line maintenance	3,060	3,355	(295)	-8.8%
General and administrative	2,357	1,976	381	19.3%
Billing and collection	621	594	27	4.5%
Interest expense	224	238	(14)	-5.9%
Depreciation	4,341	4,449	(108)	-2.4%
Total expenses	<u>26,152</u>	<u>25,553</u>	<u>599</u>	<u>2.3%</u>
Income (loss) before capital contributions	4,895	2,804	2,091	74.6%
Add: Capacity fees	3,000	2,079	921	44.3%
Change in net position	<u>7,895</u>	<u>4,883</u>	<u>3,012</u>	<u>61.7%</u>

FAIRFIELD-SUISUN SEWER DISTRICT

Management's Discussion and Analysis

Financial Analysis *(Continued)*

Analysis of the condensed statement of revenues, expenses and changes in net position for fiscal year ended June 30, 2019, as compared to fiscal year ended June 30, 2018 are as follows:

- *Total revenues* for fiscal year ended June 30, 2019 increased by 9.5%. This increase was a combination of the following: 1) Annual sewer service rate increase of 3.6% in accordance with Proposition 218 Notice issued in January 2017. This annual sewer service charge rate increase, along with moderate growth increase resulted in increased sewer service revenue of 5.8% in fiscal year 2018/19. 2) Other revenue increased significantly, due to reclassification of Biosolids Host and Facility Charge (Biosolids Fee) previously recognized as non-operating revenue, included in *Other revenue*'s non-recurring service charge revenue that varies from year to year. *Interest Income* increased proportionately to increase in the District's investment portfolio, combined with slightly higher interest yield earned on investment securities.
- *Capacity fees* increased by 44.3% as real estate development in the District's service area continued to pick up. The most recent development projection available forecasts a steady population growth through fiscal year 2024-25.

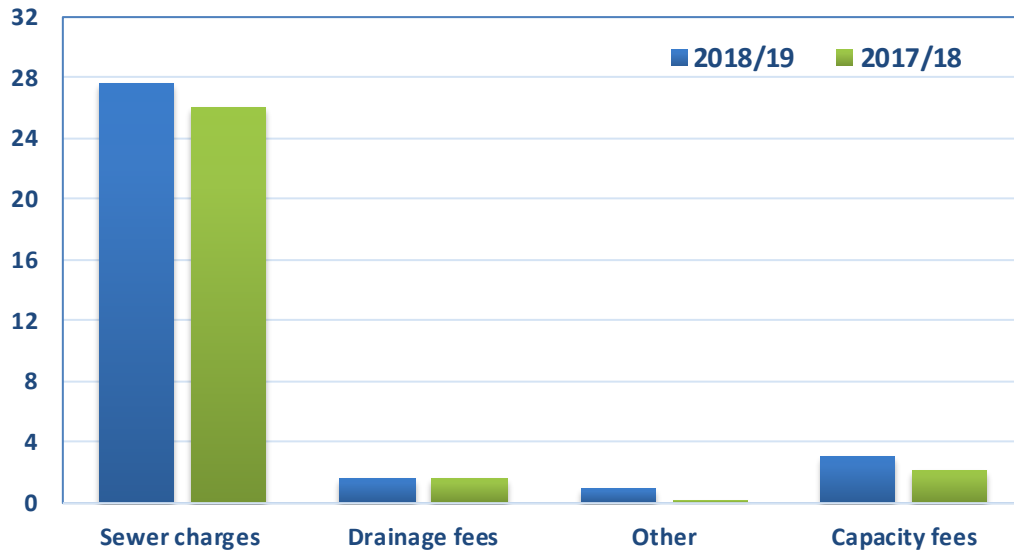

Overall *Expenses* increased by 2.3%. *Business Operations* are expenses directly related to the operations and maintenance of the Plant. One major component of the Business Operations is the rehabilitation and maintenance (non-capital) function, which varies from year to year based on budget and availability of in-house labor. *General and Administrative* are expenses related to finance, administration, human resources, and others not directly related to operations and maintenance; the 19.3% increase was due to higher salaries and OPEB expense recognized. The 4.5% increase in *Billing and collection* was consistent with annual Consumer Price Index (CPI) increase and growth, as required by agreement. *Sewer line maintenance* is the cost to maintain the sewer lines and collection system, both are contracted out and maintained by District staff; more extensive sewer line maintenance work is contracted out once every two years as was done in the prior fiscal year. *Interest expense* continues to decline as debt obligation nears maturity.

FAIRFIELD-SUISUN SEWER DISTRICT

Management's Discussion and Analysis

Capital Assets

The District's investment in capital assets, net of accumulated depreciation, was \$73.7 million as of June 30, 2019. This investment in capital assets includes land and improvements, construction in progress, buildings and improvements, vehicles and equipment, trunk lines, pump stations, and treatment plant facilities. Additional information on the District's capital assets can be found in Note 5, page 28.

Debt Administration

The District has a rating of "A+" from Standard and Poor's Corporation, which demonstrates its strong capacity to meet its financial obligations.

The District continues to upgrade and improve the quality of its sewage collection and treatment systems to keep current with environmental regulations and the needs of its service area. To the extent possible, the District attempts to fund capital projects through "pay-as-you-go" financing. Community growth pays for itself so that, upon built out, major debt service burdens will not be shifted to ratepayers. Reserves are earmarked for future major maintenance and capital projects.

Additional information on the District's long-term debt can be found in Note 6, pages 29-30.

FAIRFIELD-SUISUN SEWER DISTRICT

Management's Discussion and Analysis

General Enterprise Functions

The District maintains a proactive, entrepreneurial style of organization that encourages efficiencies. District ratepayers have for many years enjoyed the lowest sewer service rates among surrounding communities, despite the fact that the District receives no property tax revenues.

Using This Annual Report

This section of the annual report consists of two parts: Management's Discussion and Analysis, and Basic Financial Statements. The Basic Financial Statements also include notes that explain in more detail some of the information in the financial statements.

Requests for Information

This financial report is designed to provide a general overview of the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Helen Gaumann, Director of Administrative Services, at 1010 Chadbourne Road, Fairfield, CA 94534-9700 or visit our website at <http://www.fssd.com/contact>.

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

1. Organization

The Fairfield-Suisun Sewer District (District) is a special district consisting of all territory within the cities of Fairfield and Suisun City (the Cities). The District has broad powers to finance, construct and operate sewage collection and disposal and reclaimed water systems, and maintain storm drainage infrastructure within District jurisdiction. The District's governing board consists entirely of members from the City Councils of both cities.

A. Wastewater

The District operates a single sewage treatment plant, which was completed in 1976. It also owns and operates 70 miles of trunk sewers over 10" in diameter and 13 wastewater pump stations. The day-to-day operations and maintenance of the treatment plant and collection systems are performed by District staff. All construction management of capital expansion and most major maintenance projects are also performed by District staff.

B. Drainage Maintenance

Pursuant to an agreement entered into on March 1988 with the cities of Fairfield and Suisun City, the District collects drainage fees to be used as supplemental funding to maintain the regional and local drainage facilities within the District's jurisdiction, including those constructed by the U.S. Army Corps of Engineers as part of the Fairfield Vicinity Streams Project.

Drainage fees, as established by the governing board, are collected on the Solano County tax roll pursuant to an agreement with Solano County. Total fees collected in fiscal year ended June 30, 2019 were \$1,618,819.

2. Summary of Significant Accounting Policies

The Financial Reporting Entity—The District complies with GASB 14, "The Financial Reporting Entity." This statement establishes standards for defining and reporting on the financial reporting entity. It defines component units as legally separate organizations for which the elected officials of the primary government are financially accountable. Other organizations may also be designated as component units, particularly if the nature and significance of their relationship with a primary government are such that the organizations' exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The District considered all potential component units in determining what organizations should be included in the financial statements. Based on these criteria, there are no component units to include in the District's financial statements.

FAIRFIELD-SUISUN SEWER DISTRICT

Notes to Financial Statements

June 30, 2019

Basis of Accounting—The District is accounted for as a single enterprise fund. An enterprise fund is a proprietary fund type used to account for operations that are financed and operated in a manner similar to private business enterprises. The District’s intent is that the costs of providing services to customers on a continuing basis be financed or recovered primarily through sewer service charges.

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Government Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

The District uses the accrual basis of accounting. Under this basis of accounting, revenues are recognized when they are earned, and expenses are recognized when incurred. Operating revenues and expenses result from the ongoing principal operation of the District. Operating revenues consist primarily of charges for services. Non-operating revenues and expenses are related to financing and investing type activities and result from nonexchange transactions or ancillary services. Unbilled utility service receivables are recorded at year-end. As required for enterprise funds, the District uses a flow of economic resources measurement focus.

The District applies all applicable GASB pronouncements for certain accounting and financial reporting guidance. In December of 2010, GASB issued GASBS Number 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. This statement incorporates pronouncements issued on or before November 30, 1989 into GASB authoritative literature. This includes pronouncements by the Financial Accounting Standards Board (FASB), Accounting Principles Board Opinions (APB), and the Accounting Research Bulletins of the American Institute of Certified Public Accountants' (AICPA) Committee on Accounting Procedure, unless those pronouncements conflict with or contradict with GASB pronouncements.

When an expense is incurred for purposes in which both restricted and unrestricted net positions are available, it is the District’s policy to first apply unrestricted resources.

Budget—Although not legally required of enterprise funds, District management takes pride in the preparation and Board adoption of a biennial budget and ten-year Long-Term financial plan. The long-term financial plan is in conjunction with the District’s Master Plan and the cities’ growth projections. This process has been instrumental in the District’s ability to build reserves for future needs and has allowed the District to fund most major expansion projects from reserves, and consequently keep debt low.

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

Budgetary control is maintained at the department level for administrative and operating expenses and at the project level for capital improvements. New construction projects are individually approved by the Board.

Cash Management—The Director of Administrative Services serves as District Treasurer. The Treasurer may issue and administer detailed investment instructions that conform to the provisions of the Investment Policy, as reviewed and adopted annually by the Board of Directors. The District's Investment Policy conforms to the California Government Code Section 53601. As of June 30, 2019, all surplus cash was invested in the following:

State of California Local Agency Investment Fund (LAIF), is a voluntary program created by statute; began in 1977 as an investment alternative for California's local governments and special districts.

California Asset Management Program (CAMP) is a California Joint Powers Authority ("JPA") established in 1989 to provide California public agencies with professional investment services. The CAMP Pool is a permitted investment for all local agencies under California Government Code Section 53601. This program consists of a short-term money market fund rated AAA and separately managed portfolios of specific authorized securities (as specified in this policy).

Savings accounts, checking and money market investment securities.

In order of priority, the primary objectives of the District's investment activities are safety of principal, liquidity, and return on investment.

Cash and Investments—Funds are invested in accordance with Section 53601 of the Government Code of the State of California and the District's established investment policy. All monies not required for immediate expenses are invested to earn maximum yield consistent with safety and liquidity. All investments are kept in the custody of the District or a qualified safekeeping institution. A quarterly report is made to the Board of Directors showing a description of the investments, maturity date, par value, carrying value, market value, current yield, and estimated annual income. Investments are adjusted to fair value when material as required by the Government Accounting Standards Board Statement 31.

Under the provisions of the District's investment policy and in accordance with the Government Code of the State of California, the District may invest in the following types of investments:

FAIRFIELD-SUISUN SEWER DISTRICT

Notes to Financial Statements

June 30, 2019

- Obligations of the U.S. Treasury
- Warrants, Treasury Notes, or Bonds issued by the State of California
- Negotiable Certificates of Deposit issued by federally or state-chartered banks or associations
- Agencies and instrumentalities
- Prime commercial paper of U.S. corporations
- Bankers Acceptances with maturities not to exceed 180 days
- Medium-term notes issued by U.S. corporations
- The District may contract for the use of investment services subject to all other provisions of this Investment Policy
- Local Agency Investment Fund (LAIF) operated by the Treasurer's Office of the State of California
- Any other investment security authorized under the provisions of California Government Code Section 53601

Statement of Cash Flows—For purposes of the statement of cash flows, the District considers all cash and investments and all cash with fiscal agents with an original maturity of three months or less as cash and cash equivalents.

Statement of Revenues, Expenses, and Changes in Net Position—The statement of revenues, expenses, and changes in net position is the operating statement for proprietary funds. This statement distinguishes between operating and non-operating revenues and expenses and presents a separate subtotal for operating revenues, operating expenses, and operating income. Operating revenues and expenses generally result from providing services in connection with the District's principal ongoing operations. The principal operating revenues of the District are the charges to customers for services. Operating expenses include the cost of providing and delivering services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Statement of Net Position—The statement of net position is designed to display the financial position of the District. The District's net position is classified into three categories as follows:

Net Investment in Capital Assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position, as applicable.

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

Restricted – This component of net position consists of constraints placed on an asset use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws and regulations of other governments, and reduced by liabilities and deferred inflows of resources related to those assets. It also pertains to constraints imposed by law or constitutional provisions or enabling legislation.

Unrestricted – This component of net position consists of the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

Property, Plant and Equipment—Property, plant and equipment are stated at cost less accumulated depreciation. The District capitalizes all assets with a historical cost of at least \$5,000 and a useful life of at least 5 years. The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are expensed as incurred. The cost of assets retired or sold, together with the related accumulated depreciation, is removed from the accounts and any gain or loss from disposition, is credited or charged to revenues.

Depreciation is provided on the straight-line method over the following estimated useful lives:

Trunk lines/pump stations and treatment plant	20 – 40 years
Buildings and improvements	20 – 40 years
Vehicles and equipment	5 – 10 years

Construction in Progress—The District constructs assets for its own use in plant operations. The costs associated with these projects are accumulated in a Construction-in-Progress account while the project is being developed. Once the project is complete, the entire cost of the constructed asset is transferred to the capital assets account and depreciated over the estimated life of the asset.

Deferred Outflows/Inflows of Resources—The deferred outflows of resources are a separate financial position element which represents a consumption of net position that applies to future periods and so will not be recognized as an expense until then. This fiscal year’s deferred outflows represent the pension and Other Postemployment Benefit (OPEB) expenses and changes to net pension and net OPEB liability.

This fiscal year’s deferred inflows of resources are the net difference between projected and actual earnings on pension plan investments, change of assumptions, and differences between expected and actual experiences amortized over 3.8 years or less. More information can be found in Note 10 and Note 11, pages 33-47.

FAIRFIELD-SUISUN SEWER DISTRICT

Notes to Financial Statements

June 30, 2019

Pension—For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District’s pension plan and additions to/deductions from the Plan’s fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Bond Discounts and Issuance Costs—Long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bonds payable are reported net of applicable bond premium and discounts are reported as noncurrent assets along with any insurance payments made during issuance of the bond. Bond issuance costs, other than prepaid insurance, are expensed in the period incurred.

Compensated Absences—District employees are granted compensated absences in varying amounts based on years of service. Compensated absences payable represents the District’s liability for earned but unused compensated absences at year-end.

Capacity Fees—Capacity fees, which represent a one-time fee for capacity in the sewer system, are legally restricted for growth-related projects.

Use of Estimates—Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

Subsequent Events—Management has reviewed subsequent events and transactions that occurred after the date of the financial statements through, the date the financial statements were issued. The financial statements include all events or transactions, including estimates, required to be recognized in accordance with generally accepted accounting principles.

On July 7, 2019 the District made a \$2 million payment to CalPERS as an additional discretionary payment towards its unfunded pension liability, as approved by its Board on June 24, 2019.

3. Cash and Investments

A. Policies

California Law requires banks and savings and loan institutions to pledge government securities with a market value of 110% of the District’s cash on deposit, or first trust deed mortgage notes with a market value of 150% of the deposit, as collateral for

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

these deposits. Under California Law this collateral is held in a separate investment pool by another institution in the District's name and places the District ahead of general creditors of the institution.

The District invests in individual investments and in investment pools. Individual investments are evidenced by specific identifiable securities instruments, or by an electronic entry registering the owner in the records of the institution issuing the security, called the book entry system. In order to increase security, the District employs the Trust Department of a bank as the custodian of certain District-managed investments, regardless of their form.

The District's investments are carried at fair value, as required by generally accepted accounting principles. The District adjusts the carrying value of its investments to reflect their fair value at each fiscal year-end, and it includes the effects of these adjustments in income for that fiscal year.

GASB 72, Fair Value Measurements established a hierarchy of inputs to the valuation techniques above in Note 2. This hierarchy has three levels:

Level 1 – Inputs are quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs are quoted market prices for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other than quoted prices that are not observable

Level 3 – Inputs are unobservable inputs, such as a property valuation or an appraisal.

The District has the following recurring fair value measurements as of June 30, 2019:

- 1) California Local Agency Investment Fund (LAIF) of \$21,585,692 was valued using Level 2 inputs.
- 2) California Asset Management Program balance of \$21,029,883 was valued using Level 2 inputs.
- 3) Certificate of deposits, savings account, checking account and money market accounts of \$2,751,759 were valued using Level 2 inputs.

Each of these valuation techniques requires inputs to calculate a fair value. Observable inputs have been maximized in fair value measures, and unobservable inputs have been minimized.

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

B. Classification

Cash and investments are classified in the financial statements as shown below, based on whether their use is restricted under the terms of District debt instruments.

	June 30, 2019
Cash and investments	
Held by District	\$ 49,602,646
Held by escrow agent	427,170
Restricted investments	
Held by District	737,038
Total cash and investments	\$ 50,766,854

C. Authorized Investments

Investments authorized by the California Government Code and the District's Investment Policy for all District investments including debt service reserve are the following:

Authorized Investment Type	Maximum Maturity	Minimum Credit Quality	Maximum Percentage of Portfolio	Maximum Investment In One Issuer
U.S. Treasury Obligations	5 years	N/A	None	N/A
U.S. Agency Securities	5 years	N/A	None	N/A
State of California Obligations	5 years	N/A	None	N/A
Bankers Acceptances	180 days	N/A	40%	30%

Mutual Funds	N/A	Top Ranking of 2 NRSRO (A)	20%	10%
Money Market Mutual Funds	N/A	Top Ranking of 2 NRSRO (A)	20%	N/A

(A) Nationally Recognized Statistical Rating Organization

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

The District does not enter into range notes, inverse floaters, mortgage-derived interest-only strips, or any security that could result in zero interest accrual if held to maturity. At June 30, 2019, the District's investments were in compliance with the above provisions.

D. Interest Rate Risk

Interest rate risk is the risk of potential fair value losses from future changes in prevailing market interest rates. Normally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its investments in accordance with its investment policy and the California Government Code, which limits investment maturities to five years or less unless authorized by the District Board for a specific purpose.

Information about the sensitivity of the fair values of the District's investments (including investments held by trustees) to market interest rate fluctuations are provided by the following table:

	Fair Value	June 30, 2019 Maturity Distribution			% of Portfolio
		0-12 months	1-2 years	2-5 years	
U.S. Treasury Instruments	\$ 5,875,209	\$ -	\$ -	\$ 5,875,209	12.95%

Total Investments	\$ 45,357,413	\$ 27,835,423	\$ 5,199,483	\$ 12,322,507	100.00%

The District is a participant in the Local Agency Investment Fund (LAIF) as well as in the California Asset Management Program (CAMP). LAIF is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The District reports its investment in LAIF at the fair value amount provided by LAIF, which is the same as the value of the pool share. Included in LAIF's investment portfolio are collateralized mortgage obligations, mortgage-backed securities, other asset-backed securities, loans to certain state funds, and floating rate securities issued by federal agencies, government-sponsored enterprises, United States Treasury Notes and Bills, and corporations.

E. Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. It is the District's policy to limit its investments in these investment types to the top rating issued by the nationally recognized statistical rating organization.

The following table shows the District's investments and their related credit rating.

	June 30, 2019	
	Fair Value	Credit Rating
U.S. Treasury Instruments	\$ 5,875,209	AA+, AA, AA-
Federal Agency Issues	1,336,314	AA+, AA, AA-
Federal Agency Mortgage-Backed Securities	350,083	AA+, AA, AA-

Medium-Term Corporate Notes	6,157,493	BBB+, BBB, BBB-
Asset-Backed Securities	2,054,002	AAA
Municipal Obligations	177,732	AA+, AA, AA-
Local Agency Investment Funds	21,709,920	NR
CAMP	111,732	AAAm
Money Market/Mutual Funds/Checking Account	2,751,759	NR
Total	\$ 45,357,413	

F. Concentration of Credit Risk

Concentration of Credit Risk can arise in the wake of a failure to adequately diversify investments. GASB 40 requires disclosure of concentrations of investments greater than 5% in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pool). The District does not have an investment that requires this disclosure at June 30, 2019.

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements

4. Restricted Net Position

Restricted net position at June 30, 2019, consist of the following:

Restricted for capital projects	\$ 5,373,654
Restricted for debt service	737,038
Restricted for major maintenance	<u>33,755,000</u>
	<u>\$ 39,865,692</u>

The restricted for capital projects is the unspent portion of capacity fees, which are legally restricted for growth-related projects.

The debt service restriction is the maximum annual debt service on the State Revolving Fund loan, as required by the bond indenture.

As a condition of the original grant to finance the construction of the sewage treatment plant, the Environmental Protection Agency requires that wastewater funds be set aside for major maintenance. Additions to and charges against these restricted assets are recorded as transfers from or to unrestricted net position and are made in accordance with the major maintenance policy as adopted by the Board of Directors in 2005.

A. State Revolving Fund Loan

Ultraviolet Disinfection Project

On January 20, 2010, the District entered into a loan agreement with the California State Water Resources Control Board (SWRCB) under the Clean Water State Revolving Fund (SRF) loan program for the financing of the Ultraviolet Disinfection Project. The District was approved for a loan amount of up to \$11,100,000, with an interest rate at 2.9%, payable over 20 years. Principal and interest payments, which are due semi-annually on May 1 and November 1, will commence one year following the completion of the project. Payment on this loan started on May 2012.

Future debt service payments on the SRF loan are as follows:

Year Ending	Principal	Interest	Total
June 30			
2020	\$ 525,506	\$ 211,532	\$ 737,038
2021	540,856	196,182	737,038
2022	556,655	180,383	737,038
2023	572,915	164,123	737,038
2024	589,650	147,389	737,039
2025 - 29	3,216,893	468,298	3,685,191
2030 - 31	1,422,152	51,923	1,474,075
	<u>\$ 7,424,627</u>	<u>\$ 1,419,830</u>	<u>\$ 8,844,457</u>

Blower Replacement Project

On February 12, 2018 the District entered into a loan agreement with the California State Water Resources Control Board (SWRCB) under the Clean Water State Revolving Fund (SRF) loan program for the financing of the Blower Replacement Project. The District was approved for the total project cost of \$11,608,547. Out of the total loan amount, \$4,000,000 was declared a grant under the Environmental Protection Agency's program and was eligible for loan forgiveness. The estimated principal amount that will be due for repayment to the SWRCB under this Agreement is \$7,608,547, with interest rate at 1.8%, payable over 20 years, starting one year after project completion, which is projected to be December 2019.

Total long-term liability recognized as of June 30, 2019, was limited to the total of actual reimbursement received to date, which was \$7,551,825.

Future debt service payments on the SRF loan are projected as follows:

Year Ending June 30	Principal	Interest	Total
2020	\$ -	\$ -	\$ -
2021	307,065	98,773	405,838
2022	328,390	128,591	456,981
2023	331,465	125,516	456,981
2024	337,432	119,549	456,981
2025 - 2029	1,780,482	504,423	2,284,905
2030 - 2034	1,946,598	338,307	2,284,905
2035 - 2039	2,128,214	156,691	2,284,905
2040	448,901	8,080	456,981
	<u>\$ 7,608,547</u>	<u>\$ 1,479,930</u>	<u>\$ 9,088,477</u>

Both SRF loans are secured by all District operating revenues. As a requirement of the SRF loan, a restricted amount equivalent to one year of loan payments is held in a restricted account held by the District. The SRF restricted amount is currently \$737,000. This restricted amount will increase when known for the blower replacement project

Compensated Absences

Compensated Absences activity during the fiscal year was as follows:

June 30, 2018	Additions	Reductions	June 30, 2019	Due Within One Year
\$ 875,596	\$ 1,030,258	\$ (959,973)	\$ 945,881	\$ 756,705

7. Related Party Transactions

The District had existing financial transactions with the cities of Fairfield and Suisun City during fiscal year 2018/19. Sewer line maintenance represents amounts paid to the Cities for the maintenance of its sewer lines smaller than 12" in diameter. Sewer service charges and sewer capacity fees are collected by the Cities and are remitted to the District, net of billing and collection fees. Outstanding receivables include capacity fees collected by the Cities not yet remitted to the District and sewer service charges billed by the Cities on the District's behalf as of June 30, 2019.

These transactions are described below:

Sewer line maintenance	\$	3,060,300
Billing and collection	\$	620,929
Outstanding accounts receivable	\$	4,147,027

8. Insurance

The District is exposed to various risks of loss related to torts, theft, damage, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. To mitigate these risks the District joined together with other entities to form the California Sanitation Risk Management Authority (CSRMA), a public-entity risk pool currently operating as a common risk management and insurance program for member entities. The purpose of CSRMA is to spread the adverse effects of losses among the member entities and to purchase excess insurance as a group, thereby reducing its cost. The District pays an annual premium to CSRMA for its legal liability, property damage, workers compensation insurance, and automobile coverage.

CSRMA is governed by a Board composed of one representative from each member agency. The Board also controls the operations of CSRMA, including the selection of management and approval of operating budgets. Each member shares surpluses and deficiencies proportionate to its participation in CSRMA.

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

Audited condensed financial information for CSRMA is presented below for the year ended June 30, 2018 (most recent information available):

Total assets	\$	25,703,119
Total liabilities	\$	17,997,369
Net Position	\$	7,705,750
Total revenues	\$	10,453,268
Total expenses	\$	13,926,188

The District has not incurred a claim that exceeded its insurance coverage limits in any of the last five years.

A summary of the insurance policies in force as of June 30, 2019, can be found in the Statistical Section of this report. Copy of CSRMA's annual financial report may be obtained from their website at <http://www.csrma.org/docs/CSRMA-Annual-Report.pdf>.

9. Deferred Compensation

The District offers its employees two deferred compensation plans created in accordance with the Internal Revenue Code Section 457 and 401(a). These plans permit a pre-tax deferral of a portion of salary until future years. The deferred compensation is not available to employees until separation, retirement, death, or an unforeseeable emergency. All employees are eligible to participate in the 457 plans. In addition, professional and management employees are eligible to participate in the 401(a) plan. The District contributes a specified amount to the 457 plan and specified percentages to the 401(a) plan. The District's contributions to the deferred compensation plans were \$345,894 for fiscal year June 30, 2019.

The assets and related income of the plans are assets of a trust to which the District has no obligation other than to make payments on behalf of its employees.

10. Pension Plan

A. General Information about the Pension Plan

Plan Description

All qualified full-time and part-time District employees are eligible to participate in a pension plan offered by California Public Employees Retirement System (CalPERS) a cost-sharing multiple employer defined benefit pension plan. CalPERS provides retirement, disability, and death benefits to eligible plan members and beneficiaries. Benefit provisions under the Plan are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one full year of full-time employment. Members with 5 years of service credit are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for the non-duty disability benefits after 10 years of service. The death benefit is one of the following: The Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The annual cost of living adjustment is applied as specified by the Public Employees Retirement Law.

The Plan's provisions and benefits in effect at June 30, 2019 are summarized as follows:

Miscellaneous

	Hired prior to January 1, 2013	Hired on or after January 1, 2013
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	60	62
Monthly benefits, as a % of annual salary	3%	2%
Required employee contribution rates	8.000%	6.500%
Required employer contribution rates ¹	20.116%	7.000%

¹ Employer Contribution rates includes UAL (unfunded accrued liability) percentage

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

On September 12, 2012, the California Governor signed the California Public Employees' Pension Reform Act of 2013 (PEPRA) into law. PEPRA took effect on January 1, 2013.

Key components of the legislation are as follows:

- Establishes PEPRA which will apply to all public employers and public pension plans on and after January 1, 2013 (Except specific exemptions);
- Establishes new retirement tiers/benefits for new public employees;
- Prohibits certain cash payments from being counted as compensation; and
- Increases retirement age for all new public employees.

Employees hired on or after January 1, 2013, without prior CalPERS credited service will fall under the PEPRA as noted in the above table.

CalPERS determines contribution requirements using a modification of the Entry Age Normal Method. Under this method, the District's total normal benefit cost for each employee from date of hire to date of retirement is expressed as a level percentage of the related total payroll cost. Normal benefit cost under this method is the level amount the employer must pay annually to fund an employee's projected retirement benefit. This level percentage of payroll method is used to amortize any unfunded actuarial liabilities. The actuarial assumptions used to compute contribution requirements are also used to compute the actuarial accrued liability.

Employees Covered

As of June 30, 2019, the following employees were covered by the benefit terms for each Plan:

Inactive employees or beneficiaries currently receiving benefits	33
Inactive employees entitled to but not yet receiving benefits	0
Active employees	57
Total	90

Contributions

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the fiscal year ended June 30, 2019, the contributions were as follows:

Miscellaneous	Fiscal Year 2018/19
Employer Contributions	\$ 1,099,426

B. Pension Liabilities, Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2019, the District's proportionate share of the net pension liability is \$6,572,464.

The District's net pension liability is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of the Plan is measured as of June 30, 2018, using an annual actuarial valuation as of June 30, 2017, rolled forward to June 30, 2018, using standard update procedures.

The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability for the plan as of June 30, 2017 and 2018 were as follows:

Fiscal Year	Percentage Share of Risk Pool		Change: Increase/ (Decrease)
	6/30/2019	6/30/2018	
Measurement Date	6/30/2018	6/30/2017	
Percentage of Plan (PERF C) NPL	0.06821%	0.06835%	-0.00014%

Net changes	\$ (3,246,064)	\$ (3,451,610)	\$ 205,546

Deferred Outflows/Inflows Balances

For the year ended June 30, 2019, the District recognized pension expense of \$1,527,178. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 252,174	\$ (85,814)
Changes of assumptions	749,280	(183,634)
Net differences between projected and actual earnings on plan investments	32,493	-
Change in employer's proportion	517,794	(30,982)
Differences between the employer's contributions and the employer's proportionate share of contributions	20,080	(39,848)
Pension contributions subsequent to measurement date	1,099,426	-
Total	\$ 2,671,247	\$ (340,278)

The District reported \$1,099,426 as deferred outflows of resources related to contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2020.

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

Recognition of Deferrals in Future Pension Expense

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Measurement Period Ending June 30:	Fiscal Year Ending June 30:	Net Total Deferred Outflows/(Inflows) of Resources
2019	2020	\$ 845,900
2020	2021	573,741
2021	2022	(138,982)
2022	2023	(59,115)
2023	2024	-
Thereafter	Thereafter	-

Actuarial Methods and Assumptions

The total pension liabilities in the June 30, 2017, actuarial valuations were determined using the following actuarial assumptions:

	Miscellaneous
Valuation Date:	June 30, 2017
Measurement Date:	June 30, 2018
Measurement Period:	July 1, 2017 to June 30, 2018
Actuarial Cost Method:	Entry-Age Normal Cost Method in accordance with the requirements of GASB Statement No. 68
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Payroll Growth	3.00%
Projected Salary Increase	Varies by entry age and service
Mortality Rate Table ¹	Derived using CalPERS' Membership Data for all Funds
Post-retirement benefit increase:	Contract COLA up to 2.0% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.5% thereafter.

¹The mortality rate table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using the Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses. The expected real rates of return by asset class are as followed:

Asset Class	Assumed Asset Allocation	Real Return Years 1 - 10 (a)	Real Return Years 11+ (b)
Global Equity	50.00%	4.80%	5.98%
Fixed Income	28.00%	1.00%	2.62%
Inflation Sensitive	0.00%	0.77%	1.81%
Private Equity	8.00%	6.30%	7.23%
Real Estate	13.00%	6.75%	4.93%
Liquidity	1.00%	3.75%	-0.92%
Total	100.00%		

(a) An expected inflation of 2.0% used for this period.

(b) An expected inflation of 2.92% used for this period.

Discount Rate

The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Amortization of Deferred Outflows and Deferred Inflows of Resources

Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Net difference between projected and actual earnings on pension plan investments	5 years straight-line amortization
All other amounts	Straight-line amortization over the expected average remaining service lifetime (EARSL) of all members that are provided with benefits (active, inactive, and retired) as of the beginning of the measurement period

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability/(asset), calculated using the discount rate, as well as what the District's proportionate share of the net pension liability/(asset) would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Discount Rate		
	6.15% (1% Decrease)	7.15% (Current Rate)	8.15% (1% Increase)
Measurement Date	6/30/2018		
Fiscal Year End	6/30/2019		
Net Pension Liability	\$ 11,219,922	\$ 6,572,464	\$ 2,736,063

11. Other Postemployment Benefits (OPEB)

A. General Information about the OPEB Plan

Plan Description

The District provides post-employment healthcare benefit for all its retired employees and their covered dependents as approved by District Resolution Number 03-36. The California Public Employee Retirement System (CalPERS) administers this benefit through an agent multiple-employer, defined benefit plan. All District retirees who attain age 50 with at least 5 years' service are eligible for this benefit. Coverage discontinues either at the request of the retiree or at the death of those covered. CalPERS requires that retirees enroll in Medicare at age 65. Plan benefits were established in accordance with Board policy, and authority to amend this benefit rests with the District Board.

Benefits Provided

Section 22892 - Unequal Method

The District's contribution for each retired employee plus dependent is equal to 100% of their selected plan premium, up to \$1,613 per month. The District contribution will continue to increase by the lesser of 5% or \$100 each year until it equals that of active employees' premium.

Eligibility: Employees must retire directly (within 120 days of separation from service) from the District with a service or disability annuity and must have been eligible for health benefits immediately before retirement. Benefits are provided to surviving spouses only if the retiree elected a pension annuity with a survivor benefit. Eligible retirees who previously waived PEMHCA benefits can elect coverage during open enrollment.

Section 22893 – State 100/90 Vesting

A second-tier retiree health benefit was established in November 2012, when District Board adopted Resolution No. 2012-19 electing to establish a health benefit vesting requirement for future employees pursuant to Government Code Section (GCS) 22893 of the Public Employees' Medical and Hospital Care Act. The effective date of this participation is March 1, 2013, and the vesting requirement will be applied to employees hired on or after this date.

Eligibility: To be eligible for the vesting health benefits, an employee must be at least 50 years old; must complete a minimum of 5 years' CalPERS-credited service or disability annuity with the District; must complete a total of 10 years' CalPERS-credited service to be eligible for 50% benefits, increasing by 5% each year as follows:

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

Years of CalPERS Service	Percentage
< 10	0%
10	50%
11	55%
↓	↓
≥ 20 or Disability Retirement	100%

Employees hired prior to the election of GCS 22893 were given a one-time opportunity to individually elect to be covered under the provisions of GCS 22893. Twenty-seven employees opted in.

Employees with 20 or more years of service with the District are classified as inactive and are entitled to future retiree benefits and can elect retiree health coverage from the District at or after retirement, even if they have intervening employment elsewhere.

Benefit under the vesting plan is based on weighted average of the premium of the 4 PEMHCA plans with highest enrollment each year. As of June 30, 2019, monthly employer contributions for fully vested annuitants are as follows:

Coverage	Formula	2019 Cap
Single	100% of weighted average	\$ 734
2-party	Amount of single, plus 90% of the increase in the 2-party weighted average over the single coverage weighted average	\$ 1,398
Family	Amount of single, plus 90% of the increase in the family weighted average over the single coverage weighted average	\$ 1,788

Employees Covered

As of June 30, 2018, actuarial valuation (most recent), the following current and retirees are covered by the benefit terms under the District's retiree health plan:

Active employees	57
Inactive employees or beneficiaries currently receiving benefits	24
Inactive employees entitled to, but not yet receiving benefits	2
Total	83

Contributions

The annual contribution is based on the actuarially determined contribution. For fiscal year ended June 30, 2019, the District's cash contributions were \$272,285 to the trust and \$270,431 in payments for retiree health premiums resulting in total payment of \$542,716.

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

B. Net OPEB Liability

The District’s net OPEB liability was measured as of June 30, 2018, and the total liability used to calculate the net OPEB liability was determined by an actuarial valuation date as of June 30, 2018.

Actuarial Methods and Assumptions

The total OPEB liability as of June 30, 2018, actuarial valuation was determined using the following actuarial methods and assumptions:

	Miscellaneous
Valuation Date:	June 30, 2018
Measurement Date:	June 30, 2018
Actuarial Cost Method:	Entry-Age Normal Cost Method
Amortization Period:	20-year fixed period for FY 2018/19
Amortization Method:	Level Percentage of Payroll
Asset Valuation Method:	Market value of assets
Actuarial Assumptions:	
Discount Rate	6.75%
Inflation	2.75%
Mortality	CalPERS 1997-2015 experience study
Mortality Improvement	Post-retirement mortality projected with Mortality Improvement Society of Actuaries Scale MP-2018
Service Requirement	Either pension eligibility or Section 22893 depending on hire date and employee choice
Medical Trend	Non-Medicare - 7.5% for 2020, decreasing to an ultimate rate of 4% in 2076 Medicare - 6.5% for 2020, decreasing to 4% in 2076

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

The following is the assumed asset and assumed rate of return for each based on CERBT - Strategy 1:

Asset Class Component	Target Allocation	Expected Real Rate of Return
Global Equity	57%	4.82%
Fixed Income	27%	1.47%
TIPS	5%	1.29%
Commodities	3%	0.84%
REITs	8%	3.76%
Assumed Long-Term Rate of Inflation		2.75%
Expected Long-Term Net Rate of Return, Rounded		6.75%

Discount Rate

The discount rate to measure the total OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plans fiduciary net position was projected to be sufficient to fully fund the obligation over a period not to exceed 20 years. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

Changes in Net OPEB Liability

The changes in the net OPEB liability are as follows:

	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability
Balance at June 30, 2018 (MD 6/30/17)	\$ 6,024,221	\$ 4,431,860	\$ 1,592,361
Service cost	246,354	-	246,354
Interest in TOL	431,326	-	431,326
Actual vs. expected experience	(205,681)	-	(205,681)
Assumption changes	2,618,593	-	2,618,593
Employer contributions	-	367,557	(367,557)
Employee contributions	-	-	-
Actual investment income	-	351,673	(351,673)
Administrative expenses	-	(8,232)	8,232
Benefit payments	(217,557)	(217,557)	-
Net changes	2,873,035	493,441	2,379,594
Balance at June 30, 2019 (MD 6/30/18)	\$ 8,897,256	\$ 4,925,301	\$ 3,971,955

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the District's net OPEB liability if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2018:

	Discount Rate		
	5.75% (1% Decrease)	6.75% Current Rate	7.75% (1% Increase)
Net OPEB Liability	\$ 5,282,149	\$ 3,971,955	\$ 2,910,474

Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates

The following presents the District’s net OPEB liability if it were calculated using a health care cost trend rate that is one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2018:

	Trend Rate		
	3.0% (1% Decrease)	4.00%	5.0% (1% Increase)
Net OPEB Liability	\$ 2,802,438	\$ 3,971,955	\$ 5,409,939

OPEB Plan Fiduciary Net Position

Detailed information about the net OPEB plan’s fiduciary net position is available in the separately issued CalPERS financial reports at: www.calpers.ca.gov.

Recognition of Deferred Outflows/Inflows of Resources

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time.

Amounts are first recognized in OPEB expense for the year gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

The recognition period differs depending on the source of the gain or loss as follows:

Net difference between projected and actual earnings on OPEB plan investments	5 years
All other amounts	Expected average remaining service lifetime (EARS�, 5 years at June 30, 2018)

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the District recognized OPEB expense of \$650,908. At June 30, 2019, the District reported deferred outflows and deferred inflows of resources from the following sources:

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 181,483
Changes of assumptions	2,310,523	
Net differences between projected and actual earnings on plan investments	-	32,797

Differences between the employer's contributions and the employer's proportionate share of contributions	-	-
Pension contributions subsequent to measurement date	586,189	
Total	\$ 2,896,712	\$ 214,280

Recognition of Deferrals in Future OPEB Expense

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

FYE June 30	Deferred Outflows/(Inflows) of Resources
2020	\$ 275,673
2021	275,673
2022	275,673
2023	275,672
2024	283,872
Thereafter	709,680

No separate postemployment benefit plan report is available.

12. Commitments and Contingencies

The District has one major maintenance project with commitment of approximately \$843,169 as of June 30, 2019.

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

13. New Governmental Accounting and Reporting Standards

On November 2016 GASB issued GASB Statement No. 83, *Certain Asset Retirement Obligation*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The implementation of this pronouncement did not have a significant impact on the District's financial statements.

On January 2017 GASB issued GASB Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018.

On June 2017 GASB issued GASB Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019.

On April 2018 GASB issued Statement No. 88, *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements*. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements.

FAIRFIELD-SUISUN SEWER DISTRICT
Notes to Financial Statements
June 30, 2019

It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. For notes to financial statements related to debt, this Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt.

The implementation of this pronouncement did not have a significant impact on the District's financial statements.

On June 2018 GASB issued Statement No. 89, Accounting for Interest Cost Incurred Before the end of a Construction Period. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. The requirements of this Statement should be applied prospectively. On August 2018 GASB issued Statement No. 90, Majority Equity Interests – an amendment of GASB Statement No. 14 and 61. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018.

In May 2019 GASB issued Statement No. 91, Conduit Debt Obligations. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020.

More information on the above Standards are available on the GASB website at <http://www.gasb.org>.

OTHER INDEPENDENT AUDITORS' REPORTS

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Board of Directors
Fairfield-Suisun Sewer District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Fairfield-Suisun Sewer District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Fairfield-Suisun Sewer District's basic financial statements, and have issued our report thereon dated October 4, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Fairfield-Suisun Sewer District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Fairfield-Suisun Sewer District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Fairfield-Suisun Sewer District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Fairfield-Suisun Sewer District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Statistical Section

Water Recycling: The District has been producing and distributing recycled water since 1974. Water that leaves the plant is called Final Effluent. This treated water serves many purposes, such as irrigating nearby turf farms. The District has a Restricted Use Secondary 23 Recycled Water Permit, which can be used for irrigation of non-food crops, as well as freeway landscape and pasture.

Revenue Capacity

Schedule 7 Sewer Service Charges

Fiscal Year	Residential (a)	Commercial (b)
2009/10	\$ 25.49	\$ 1.89
2010/11	26.82	2.01
2011/12	28.21	2.14
2012/13	28.21	2.14
2013/14	30.46	2.35
2014/15	32.71	2.56
2015/16	34.56	2.73
2016/17	36.35	2.90
2017/18	37.65	3.00
2018/19	39.00	3.11

- (a) Residential customers are billed a flat rate per month, per dwelling unit.
- (b) Commercial customers are billed based on water usage, per hundred cubic feet.

A cost of service and rate study is performed once every few years. The above rates are based on the rate study performed in 2004. A more recent rate study was conducted in 2016, results of which are effective starting fiscal year 2017-18. Sewer service charges are the primary revenue source for operations and the major maintenance/replacement reserve.

Schedule 13 Biosolids Disposal

Biosolids (Sludge) Hauled/Produced

Year (Calendar)	Dry Metric Tons
2009	4,856
2010	2,339
2011	2,250
2012	1,845
2013	2,073
2014	1,859
2015	1,939
2016	2,284
2017	2,777
2018	2,691

Annual biosolids disposal is derived by totaling the tons of biosolids removed from the treatment plant each year. Inter-annual variability results when on-plant storage is used to a greater or lesser extent year to year.

Higher biosolids removal in 2009 was due to maintenance work being performed on the digester and sludge lagoon.

SINGLE AUDIT REPORT

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors
Fairfield-Suisun Sewer District

Report on Compliance for Each Major Federal Program

We have audited the Fairfield-Suisun Sewer District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Fairfield-Suisun Sewer District's major federal programs for the year ended June 30, 2019. Fairfield-Suisun Sewer District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Fairfield-Suisun Sewer District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Fairfield-Suisun Sewer District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Fairfield-Suisun Sewer District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Fairfield-Suisun Sewer District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control over Compliance

Management of the Fairfield-Suisun Sewer District, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Fairfield-Suisun Sewer District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Fairfield-Suisun Sewer District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Total Expenditures of Federal Awards			\$ -	\$ 4,000,000

The accompanying notes are an integral part of these financial statements.

FAIRFIELD-SUISUN SEWER DISTRICT
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
JUNE 30, 2019

1. The Schedule of Expenditures of Federal Awards presents the activities of federal award programs expended by the Fairfield-Suisun Sewer District (the “District”). The District’s reporting entity is defined in Note 1 to the financial statements.
2. The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the District under programs of the federal government for the year ended June 30, 2019. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.
3. The Schedule of Expenditures of Federal Awards is presented on the accrual basis of accounting. This is the same method of accounting as was used in the preparation of the District’s basic financial statements.
4. The District did not pass-through any federal awards to subrecipients during the fiscal year ended June 30, 2019.
5. The total amount expended for this project through June 30, 2019 was \$7,551,824, which includes both State and Federal funds.
