

ENGINEERING INTERN

Engineering Intern
\$23.00 per hour

We are seeking a candidate to fill an Engineering Internship. This intern will work with an amazing team of inspectors, technical staff, and engineers at our award-winning facility. This is an exciting opportunity to gain experience working in the wastewater/stormwater industry to learn the importance of these utilities and be part of a helpful team.

QUALIFICATIONS

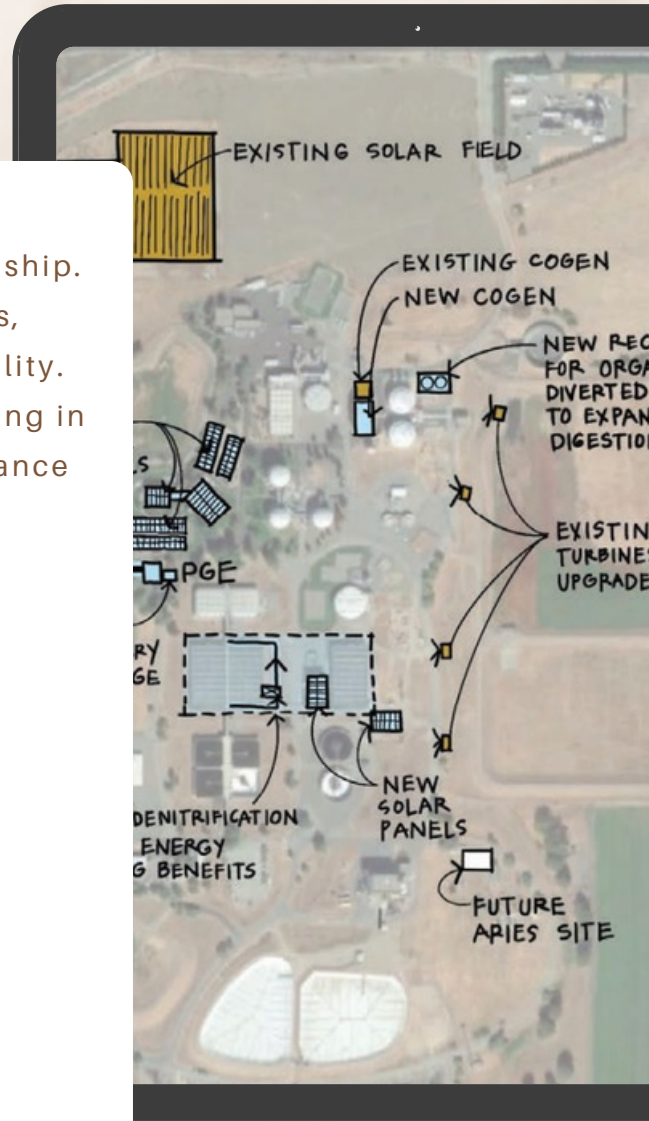

We are seeking an intern that is working towards or has obtained one of the following degrees in the last six (6) months:

- Civil Engineering
- Environmental Engineering
- Mechanical Engineering
- Construction Engineering

No experience is required for this opportunity but please list any relevant experience on your application. The following skills are desired and will be given careful consideration:

- AutoCAD - Intermediate level proficiency
- ESRI ArcGIS - Intermediate level proficiency
- Microsoft SharePoint - Intermediate level proficiency for creating and maintaining sites and metadata
- Microsoft 365 and applications - Intermediate level proficiency
