

REGULATORY

REGULATE THE SYSTEM AND EQUIPMENT.

The science, safety, and design work that makes sure every gallon leaving the plant meets standards in the safest and cleanest way possible.

LABORATORY ANALYST

SAMPLE. TEST. REVIEW.

Tests wastewater for bacteria and key indicators to confirm treatment is working, supporting plant operations with results that drive decisions and protect public health and the environment.

WHY IT'S AMAZING

- Hands-on problem-solving with real-world impact
- A mix of routine testing and troubleshooting
- Work in a ELAP accredited laboratory

PATH & CERTIFICATIONS

- Bachelor's degree in Chemistry, Biology, Microbiology or related field
- CWEA Lab Analyst and LIMS familiarity help

REGULATORY COMPLIANCE MANAGER

SAFETY. INCIDENT RESPONSE. TRAIN.

Keeps everyone safe in a plant full of confined spaces, heavy equipment and biological hazards. Work includes hazard identification and mitigation, incident response, training, and compliance.

WHY IT'S AMAZING

- Have a positive impact on every employee
- Find solutions to safety concerns or issues across every team

PATH & CERTIFICATIONS

- Bachelors degree in occupational safety or environmental science is desirable
- BCSP, ASSP or the National Safety Counsel Certs

ENVIRONMENTAL ENGINEER

COMPLIANCE. TROUBLESHOOT. COLLABORATE.

Ensures compliance with discharge, air and hazmat regulations. Troubleshoots treatment process issues and leads initiatives like asset management and sustainability.

WHY IT'S AMAZING

- Works across every department and the community
- Develops and drives solutions that ensures permit compliance
- Conducts data analysis and reporting

PATH & CERTIFICATIONS

- Bachelors degree in Civil or Environmental Engineering
- Professional Engineer (PE) license
- Non-engineering route: Environmental Science to Compliance Inspector (at other agencies)

Outreach interns work on community outreach programs to educate residents and the public on wastewater and stormwater.

OUTREACH & LAB INTERNS

Lab interns perform testing while learning reagent prep, equipment calibration, and LIMS within an ELAP accredited laboratory.
